There was excellent buying of the Southern stocks, inspired presumably by reports of early developments in the erous consolidation schemes, taking in all the roads through that part of

in ell the roads through that part of the country.

As usual, there was no end of talk about the plans and purposes and doings of the Western contingent under direction of Messus. Gates and Moore and Mitchell and others who figure as leaders of the new element. All other stocks in which these people are supposed to be interested reflected the impulse of bullish feeling.

Almost northing was heard on the suddect of gold exports. This movement is regarded in the street as a trivial incident in the international exchange market and as being nothing more than the operations of brokers anxious to secure the thinnest shaving of profit on transactions of apparently large consequence, but really amounting to little in a broad way. The profits on the shipments thus far reported are about 1-20 of 1 per cent.

Industrials are getting into line with the railroads, although the disposition among professionals is to restrict operations in that quarter.

The New York Stock Exchange mar-

among professionals is to restrict operations in that quarter.

The New York Stock Exchange market seems to have cut loose entirely from London. It pays no attention to the ups and downs in that market, but acts entirely independently. This was illustrated in the course of New York Central to-day. The London opening on that stock was lower, but it took almost motime for the New York Exchange to cut loose and make a new record on the up side, regardless of the wishes of the foreigners.

The Cotton Market.

The local cotton market opened steady to-day with prices 4 points higher to 1 point lower. There was some profit taking by smaller shorts at the opening under which prices went up fractionally, but soon after the call some Wall street commission houses sold, causing a reaction. Crop and weather news was bearish. Later in the day the sentiment was inclined to be bearish.

The opening prices were: July, 8.53 to 5.54; August, 8.34 to 8.35; September, 8.07 to 6.08; October, 7.89 to 7.90; November, 7.78 to 7.78; December, 7.77 to 7.79; January, 7.78 to 7.79; February, 7.78; March, 7.77 to 7.78.
